U-Tech CNC, a metal cutting sales and service repair distributor, is now representing JTEKT Machinery (formerly Toyota) in our Florida territory. JTEKT Machinery machining centers are a leader in the industry, known for their reduced set-ups and high-efficiency manufacturing.

U-Tech CNC is certified in both sales and service for JTEKT Machinery (formerly Toyota) - providing our customers with a local and experienced team of sales and technicians. U-Tech CNC is a strong and committed distributor and service repair provider, committed to "Constant Care and Commitment." We are confident that the values and quality of both JTEKT Machinery and U-Tech CNC will provide our customers with an improved manufacturing process and a significant return on investment.

U-Tech CNC President, Mike Hessney says, "JTEKT Machinery product lines will prove to be a successful addition to vast manufacturing industries." Please contact your local U-Tech CNC sales engineer representative to discuss JTEKT Machinery product lines best designed for your industry sector.
